Subject: Teachers Teaching On Call (TTOC) Shortages

Background:

In the 2016/17 school year, the availability of teachers on call (TTOCs) resulted in school administration filling in for absent classroom teachers on a regular basis. Since that time, the SCC decision on class size and compensation has resulted in an increase in the demand for teachers across the province. Many districts across the province and the BCTF are reporting that teacher shortages are causing significant difficulties in the public education system.
