

## COURSE CHALLENGE

### Background

Students may earn credits toward graduation in a variety of ways. In addition to earning credits by successfully completing courses, students may earn credits through challenge.

All students enrolled in Grades 10, 11 and 12 in the District are entitled to undertake a challenge process to assess their prior learning for any Ministry authorized graduation program course offered by any District in the province that school year. As well as any Board Authorized (BAA) course taught in the District that school year, provided the student has not already completed the course through previous enrolment.

International students must comply with the challenge procedures set out in the [Ministry's International Student Graduation Credit Policy](#).

### Procedures

1. A student can challenge to receive credit for Ministry-authorized or Board/Authority Authorized Grade 10, 11 or 12 courses if:
  - 1.1 They are currently enrolled in the District or are registered as a home-schooler in the District.
  - 1.2 They have not completed the course or its equivalent learning standards through previous enrollment.
  - 1.3 They can give compelling evidence that they will succeed in the challenge.
2. Prior to engaging in a challenge process, Principals must review any documentation of prior learning that a student presents in order to determine if credit can be awarded through equivalency. 3. Students must be able to demonstrate their readiness to challenge a course based on factors such as a recommendation from a previous teacher, or from evidence that relevant learning has been acquired outside the regular classroom setting. The demonstration is not to be an onerous process. School staff, in consultation with students and parents, are to make the decision about readiness.
